OBJECTIVE

Software engineer with experience in several different languages and frameworks looking for a position that allows me to apply my developer and problem-solving skills. I am primarily a frontend engineer but I have experience in the backend and full stack applications as well.

WORK EXPERIENCE

Gaggle, *Contract Software Engineer*, remote from Tampa, FL, USA

November 2024 – January 2025

- Worked in Typescript with Angular and NGSX
- Enhanced customer experience through updating features on the Safety portal, such as filters and user editing

Kin, *Software Engineer*, remote from Tampa, FL, USA

August 2021 – May 2024

- Developed proficiency in Ruby, Typescript, and Angular
- Enhanced customer experience through adding various features to the customer portal, such as a document upload page and a new sign-in page
- Worked alongside product managers and senior developers to create the electronic First Notice of Loss application
- Developed features using Agile methodology in two-week sprints

Interac, *Assistant Language Teacher*, Miyagi, Japan

April 2016 – March 2021

- Planned and delivered numerous successful EFL lessons
- Collaborated with Japanese teachers of English at multiple high schools
- Adapted to live in a different country and culture

EDUCATION

Suncoast Developers Guild, St Petersburg, FL
